#### BEST PIE (IN THE FACE)

##### Jusby The Clown

Jusby the Clown has "delivered" more than 500 pies. He doesn't throw them - that, he says, would be a waste of good pie. He offers a wide array of flavors including dairy-free, sugar-free, wheat-free and organic varieties. You can have one delivered for \$100 - including a singing telegram and photos posted to Facebook to commemorate the event. If some of us might prefer the pie end up in our stomachs rather than on our faces, no worries: "I only pie willing faces," he says.
